Write a program to print mountain of numbers which pile up numbers as pyramid shape according to the given integer input which is between 0-10 (0<a<10).

For example, if the input is 3, the output should prints as follow:

```
  1
 212
32123
```

For example:

Input	Result
3	1 212 32123
6	1 212 32123 4321234 543212345 65432123456
